31 July 1964

REPLY TO
ATTN OF: Personal Equipment

TO: Commander, WRSP-IV

SUBJECT: Report of activities for the month of July, 1964.

1. FLYING ACTIVITY: During the month of July, two high flights flown by [   ] were supported by this section.

25X1A

2. EQUIPMENT:

A. The new Jackson drivers are now equipped with one entire pressure assembly each. Their suits are the latest vented type.

B. The transition into vented suits for all drivers is progressing well and, at present, seven drivers are equipped with at least one vented suit. Five of the seven on hand have been satisfactorily fitted to them.

C. Pressure suits [   ] should arrive within the next three weeks. The suit for [   ] has been located at depot and is in-route to us.

D. PARACHUTES: We now have five of our twelve chutes equipped with the hunting knife modification and the remaining are in the parachute shop being modified.

3. RESEARCH AND DEVELOPMENT:

A. LIQUID OXYGEN PORTABLE VENTILATION UNIT: We have one unit on hand which was loaned to us by [   ] and have used it while fitting the new suits. We find it highly practical and have requisitioned four such units to support our operation.

25X1A

B. LAC has promised us a Q445 seat kit for next week. Mr. [   ] are preparing to give classes to all personnel concerned as soon as possible.

C. We have requested that [   ] be sent from [   ] to attend this class.

4. PERSONNEL:

A. TDY'S:

(1) [   ] returned from [   ] on 15 July 64.

(2) [   ] visited LAC form 30 July to 1 Aug. 64.

B. LEAVES: [   ] took leave from 13 July to 16 July 64.

C. DEPARTURES: [   ] has cleared the Base and Organization and is departing station on 4 Aug. 64. ✓

D. [   ] our new P.E. man, arrived on station 29 July 64 and is reporting for duty on 3 Aug. 64. ✓

5. SEAT KIT MAINTENANCE: [   ] serviced two LAC and Two [   ] Kits during July.
